Shaw Abbotsford Bargaining Update #8

In order to achieve a fair and respectful collective agreement - the Union passed a sensible package over that addressed the Company's concerns as well as advancing your needs. In response Shaw Communications responded with a package of their own that is simple; **Rollbacks!** Except you do not work for Walmart. You perform skilled, technical labour and you neither want nor need a regressive deal that doesn't respect this fact.

The committee as a whole will meet with you in Abbotsford next week to discuss the severity of these disgusting proposed changes and how they would impact you and your families.

#NoFear
