

Why Are We Holding a Strike Vote?

REASON
#2

Creative Redefinitions

At the bargaining table and at recent mediation, our employer has stated how they redefine long-standing roles:

MAINTENANCE

Diagnosing ONLY

Any repairs that are required after diagnosing the issue can be contracted out.

CONSTRUCTION

Cold AND Hot Build

Building additions to and rebuilding existing sections of active plant and cutting it in.

SERVICE

Contractor Warranty Work

Sending contractors back into the premise if they initially installed the equipment.

NO MORE CREATIVE DEFINITIONS

Our collective agreement requires explicit definitions to protect Unit 60 members and their families today and into the future from unscrupulous actions by our employer, whomever that may be.
