Dear Ms. Hokiro:

As per Article 19.02 we hereby notify you of TELUS' intent to contract out work functions associated with the migration and activation of jumpers in a number of Central Office frames throughout BC and Alberta.

This decision is being made in order to meet tight deadlines to complete significant volumes of work associated with the need to free up power in support of new technology builds.

Sincerely,

A photograph of a handwritten signature in cursive script on a light-colored, textured surface. The signature appears to read 'Marnie Mykes'.
